Certificate | Internship

Coding Blocks Noida

- Solved 200+ Java/DSA Coding questions on the Hacker Block platform
- Participated in various Coding contests organized by the platform.
- Technical Stack Learned: **Java, DSA, MSSQL, OOPS....**

Projects:

E-Commerce Website:

- Created engaging and dynamic web applications using **React.JS** and simplified with **React-Bootstrap** to make a responsive layout.
- Contributed to backend development by designing server-side logic and APIs with **Node.js** and **Express.js**.
- To improve data privacy, secure password hashing using **bcrypt.js** was implemented.
- **React Router** used to improve web application navigation.
- Able to use **MongoDB** Compass for efficient database management and successfully build up MongoDB databases using **MongoDB Atlas**.
- To build a reliable server, **Express.js** was used to implement the backend.
- Created efficient data models to ensure a well-organized and effective database representation for the user, product, and order entities.
- Managed version control using **Git** and **GitHub** to ensure collaborative and efficient code development.
- Proficient in **API testing** using **Postman**, validating endpoints, and ensuring the reliability and functionality of web services.

Task Management App:

- Built a sleek and functional Task Management app using React, and CSS.
- Created a user-friendly task management tool.
- Used CRUD operation for creating, reading, updating, and deleting the task.
- Created a Login form to enter the dashboard without authentication.

Technical Skills:

Programming Language: Java, MongoDB, React.js, Express.js, Node.js, HTML, CSS, MSSQL, OOPs.

Additional Courses: Data Structure and Algorithms,

Version Control: Git, GitHub,

Tools & Technologies: VS Code, IntelliJ, Postman

Education:

Master in Computer Application from AKTU

Bachelor in Computer Science from CCSU

Achievements and Co-Curricular Activities:

- Secured rank in Hacker Block coding challenge July 2023
- Received DSA certification basic to advanced.

Environment: HTML5, CSS3, jQuery, BootStrap, React.JS, Node.JS, Express.JS, MongoDB, Postman, VS Code, IntelliJ, Git, GitHub.
